"We have been very selective with every aspect of building the DiMora Vicci 6.2 Emperor, so when it came time to choose the first artist series collaboration, not just any artist would do...Zen Master Lee Sun-Don's popularity worldwide continues to make him a highly sought-after artist. My team of in-house artisans spend no less than 750 man hours to transfer the one-of-a-kind artwork to the hood and side panels of the car."

– Sir Alfred J. DiMora, Founder, DiMora Motorcar. Page 8
